**ALWAYS POWER DOWN CF-29
BEFORE REMOVING FROM DOCK**

Instructions for Powering Off

To turn unit off first close all programs that are running.
On the PDRC push the power button, located in the
lower right corner, computer will shut down and PDRC
Will power off.

- OR -

Click on the "Start" button
Click on "Shut Down" button
In the window under "What would you like to do?"
Select from the drop down box "Shut Down"
Click on OK.

By following these shut down directions you will avoid corrupting essential files the Windows uses to operate your notebook properly.
